

## Postsecondary Governance Structures

### Single Statewide Coordinating Board/Agency or Governing Board and State Postsecondary Governance Models

November 2020

This resource provides a comprehensive summary of the various entities that comprise postsecondary governance ecosystems in each state and the District of Columbia. It also:

- Focuses on and provides in-depth information about statewide coordinating boards/agencies and governing boards. If statewide boards do not exist, then information is provided for major systemwide coordinating and governing boards.
- Includes general information about other state higher education entities, such as administrative/service offices, financial aid offices and advisory boards.
- Lists other postsecondary systemwide governing boards, most multi-campus institutional boards and membership organizations.

The term public two-year institutions also may include technical colleges. This resource does not include information related to setting tuition rates, administering funding formulas or allocating funds. The state profile information is based primarily on statutes, codes and state and postsecondary system board/agency policies. To the extent possible, Education Commission of the States reached out to state and system officials to verify its information.
